Premier's Premium Care Management

A chronic condition is a medical ailment that lasts at least twelve months and causes a significant impact to a person's health and well-being. Trying to manage chronic conditions like **arthritis**, **asthma**, **COPD**, **diabetes** or **depression** can be impossible on your own, and it can take over your life.

If you suffer with two or more chronic conditions, we can help!

Breaking the Chronic Condition Cycle.

The Premier Premium Care Management program offers an entire custom care team working together to bring you the care you need to get well and feel better.

You may be eligible if:

- You have multiple (two or more) chronic conditions expected to last at least 12 months, and that;
- These conditions are expected to get worse or to place you at significant risk for functional decline or death.

Ask your doctor today about getting started in the program and on your way to improved health and a better quality of life.
