

Care Coordination Partnership Leverage Medicare Annual Wellness Visits

A Partnership with Life Line Community Healthcare significantly increases your revenue while proactively implementing care coordination of your patients. Life Line Community Healthcare’s Nurse Practitioners will perform the Medicare covered Annual Wellness Visit (AWV) under your supervision and you will be provided a personalized health plan to continue patient care that complies with Medicare requirements.

Reduce Spending ♦ Maximize Revenue ♦ And Increase Quality of Care Our Partnership WILL:

- Create care plans that include additional Medicare covered screenings, immunizations and consultations resulting in better care and higher reimbursable services.
- Improve documentation and data sharing of a plan’s member’s medical status, leading to more accurate reporting for the ACO/Plan.
- Document several HEDIS and other provider quality care measures, aiding in the accurate Medicare Star Rating of plans.
- Run CMS eligibility to obtain 100% utilization of Medicare benefits.
- Provide ALL resources to educate and schedule your patients as well as perform an in office Annual Wellness Visit (AWV) year after year.
- Identify specific patient risk factors so that you increase the overall effectiveness of each patient’s care coordination.

NATIONAL STAFFING NOW AVAILABLE

“My patients have been confused by the Annual Wellness Consultation and why they can’t discuss their regular medical problems without being billed for a consultation. Life Line Community Healthcare’s service avoids this problem and provides a comprehensive evaluation and high quality risk assessment that I can integrate into my practice to ensure high quality care”
